Specifications

Specs

Length: 14'5"

Width: 25"

Kayak Weight: 52 lbs.

Capacity: 350 lbs.

Suggested Usage

Recreational: Excellent

Touring: Excellent

Extended Touring: Excellent

Mild River: Excellent

Light Ocean: Excellent

Feature: Extra Long Hull with Skeg

Benefit: High sustained cruising speeds, excellent tracking.

Feature: Large Open Cockpit
Benefit: For ease of entry or exit, also comfortable on legs.

Feature: Front & Rear Storage Webs

Benefit: Easy access to gear.

There's magic in the Merlin, a swift highly stable solo touring kayak.

Easily steady enough for beginners, but with the performance to also

please those with more advanced paddling skills, it features a large non-

confining cockpit and our new adjustable foam padded seat. Bow and

stern storage webs provide for easy accessible gear options.

The molded skeg provides excellent straight line tracking without

sacrificing easy turning, while the length and sleek profile allow high

sustained cruising speeds. Ideal for all around use, large enough for

over nights (with gear), maneuverable enough to handle in tight

quarters, light enough to easily car top, rugged enough to take hard

knocks; it's a winning combination!
