Specifications

Specs

Length: 13'1"

Width: 29"

Kayak Weight: 57 lbs.

Capacity: 250 lbs.

Suggested Usage

Recreational: Excellent

Touring: Excellent

Extended Touring: Excellent

Mild River: Excellent

Light Ocean: Excellent

Feature: A Deep Sit-On-Top Cockpit

Benefit: Very dry for a sit-on-top!

Feature: Bow & Stern Storage Chambers

Benefit: Allows you to carry plenty of gear.

Feature: Fast Tracking Hull Design

Benefit: Agile and mobile for lake, river, or ocean cruising.

The Osprey represents a fine general purpose kayak with excellent value! This rugged, well equipped kayak with two tethered storage hatches, adjustable foot braces, a comfortable adjustable, padded seat, deck storage web, stern drainage plug, side carry handles and end carries.

The Osprey provides superior tracking with its molded skeg. The length and hull shape still permit good maneuverability with moderate cruising speed. This is a great multi-use sit-on-top with length for speed and extra storage for gear.
